

RESPECT PARAGRAPH

We all need and deserve to be respected. However, we cannot respect others when we do not respect ourselves. I understand that when I am rude, put people down, talk negatively, or insult people, I am not respecting the rights of others. I also understand that by doing these things I am not respecting myself. I know that my behavior was unsatisfactory. This is what I said/did that showed disrespect to my classmate

I understand that one of the major expectations in this classroom is to respect others. I am taking responsibility for what I did. I will choose to treat others the way I would like to be treated and always give my very best.
