

TALKING PARAGRAPH

I understand that time is one of the most valuable things we have. When I talk, play, or disrupt the class, I am wasting valuable learning time. That is not fair to my teacher, my classmates, or to myself. I know I am at school to learn, and I must obey the rules so that I will not keep others from learning. I understand that it is okay to talk if I raise my hand and the teacher calls on me or if talking is necessary to complete my assignment. But I know that I must not talk when the teacher is talking; when a student is asking or answering a question; or when the teacher has instructed the class to be quiet. I will choose to follow the rules in the future and always give my very best.
