

Pumpkin Addition

Standard:

M2N2.a Correctly add two whole numbers up to three digits with regrouping.

1. Each player shuffles the pumpkin number cards and places them in a stack facedown.
2. Each player draws six pumpkin number cards and creates a 3-digit addition problem.
3. Each player records their 3-digit addition problem onto the Pumpkin Addition recording sheet.
4. Each player then solves the addition problem.
5. If the problem is correct, the player earns one-point. If the problem requires regrouping, the player earns a bonus point. If the problem is incorrect, the player receives no points.
6. Place the pumpkin cards back in the deck. Reshuffle the cards and play again.
7. The player with the most points wins.
