

Perfect Placement

Objective: Place Value

Perfect Placement

1. Remove the Number Cards and Place Value Mat from the envelope.
2. Retrieve a die and a sheet of paper for keeping score.
3. Each player receives a workmat and a set of number cards.
4. Place the workmat face up on your work surface and place the number cards facedown.
5. To play, each player randomly selects four number cards.
6. Player 1 rolls the die and announces the number. If it is four, five or six, players form the greatest four-digit number. If it is one, two, or three, players form the smallest four-digit number.
7. Players compare numbers and the winning player receives one-point.
8. Players clear their mat and scramble their number cards.
9. Play continues as time allows.
