

Jellybean Subtraction

Objective:

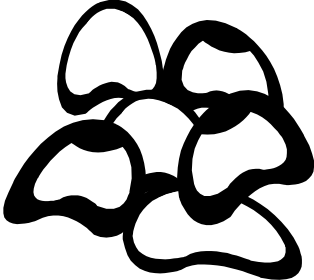

Subtraction with regrouping

1. Select a jellybean from the tub/basket.
2. Open the jellybean and read the subtraction problem.
3. Record the subtraction problem in one of the boxes located on the Jellybean Subtraction recording sheet. Be sure to use your knowledge of place value when recording the numbers.
4. Solve the subtraction problem. Be sure to use addition to check your work.
5. Continue this procedure until you have practice eight (8) subtraction problems.
6. Don't forget to answer the question at the bottom of the recording sheet.

Jelly Bean Subtraction

1.)	2.)	3.)
4.)	5.)	6.)
7.)	8.)	

Explain how you know when to regroup from the tens column to the ones column.
